PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors: D. I. Arnon, Berkeley; J. Baeyens, Louvain; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen; L. K. Wiersum, Haren.

Secretary: G. H. Arnold

Assistant Secretary: J. K. Smit

c/o Institute for Soil Fertility

Haren (Gr.), Netherlands

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; A. van Diest, Wageningen; L. Gisiger, Liebefeld-Berne; A. J. de Groot, Haren; W. R. C. Handley, Oxford; J. L. Harley, Oxford; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; T. A. Lie, Wageningen; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Haren

Druk: Koninklijke Drukkerij Van de Garde N.V., Zaltbommel.

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

RAFIQ AHMAD and ERIC J. HEWITT, Studies on the growth and phosphatase activities in *Suaeda fructicosa* 691

S. K. ARORA and Y. P. LUTHRA, Nitrogen metabolism of leaves during growth of *Phaseolus aureus* L. as affected by S, P, and N application 283

S. K. ARORA and Y. P. LUTHRA, Relationship between sulphur content of leaf with methionine, cystine and cysteine contents in the seeds of *Phaseolus aureus* L. as affected by S, P and N application 91

M. S. BAJWA and D. R. BHUMBLA, Relationship between root cation-exchange capacity and sodium tolerance of different crops 57

S. BARRIOS and V. GONZALEZ, Rhizobial symbiosis on Venezuelan savannas 707

B. L. BASER and S. N. SAXENA, *Short communication.* Chemical methods of estimating plant-available manganese in soils 203

G. S. BHANDARI, LALLAN SINGH and U. S. GUPTA, *Short communication.* Effect of different concentrations of some ammonium fertilizers on the germination of *Pennisetum typhoides* Stapf & Hubb. and *Sorghum vulgare* Pers 229

R. BOXMA and A. J. DE GROOT, Behaviour of iron and manganese chelates in calcareous soils and their effectiveness for plants 741

M. A. CHALVIGNAC and J. MAYAUDON, Extraction and study of soil enzymes metabolising tryptophan 25

B. T. Cheng and G. J. Ouelette, Effects of organic amendments on manganese toxicity in potatoes as measured by sand and soil culture studies 165

I. S. Cornforth and H. A. D. Chesney, *Short communication.* Nitrification inhibitors and ammonia volatilization 497

S. Y. Daftardar and N. K. Savant, *Short communication.* Infuence of competition between root colloids for cations on K/Ca ratio in plant tops 201

G. R. Dixon, *Short communication.* Effet of root disturbance on the amino acid concentrations of young tomato leaflets . 531

R. van den Driessche, Response of connifer seedlings to nitrate and ammonium sources of nitrogen. 421

R. S. Dwivedi and Rajpati Dwivedi, Ecology of soil fungi of a sal forest with emphasis of fungistasis 33

P. J. Eberhardt and W. L. Pritchett, Foliar applications of nitrogen to slash pine seedlings 731

A. M. Elgala, R. H. Maier and W. H. Fuller, *Short communication.* A method for the isolation and determination of ferric ethylenediamine di (o-hydroxyphenylacetic acid) in soil studies 241

A. M. Elgala and R. H. Maier, Effect of ethylenediamine di (o-hydroxyphenylacetic acid) application to soil columns on the distribution of certain nutrient elements in the water-soluble, acid-soluble and exchangeable forms 607

M. A. Elnaghy, A. H. Moubasher and S. E. Megala, Stimulation of sclerotial germination of *Sclerotium cepivorum* by host-plant extract 109

G. Ferrari and D. Nisato, *Short communication.* Enzyme induction in ion absorption by plants: An experimental approach 519

Robert A. Floyd and A. J. Ohlrogge, Gel formation on nodal root surfaces of *Zea mays.* Some observations relevant to understanding its action at the root-soil interface 595

GERTRUDE FRANZ, Mikrobiologische Charakterisierung einiger natürlicher und kultivierter Standorte in drei verschiedenen ökologischen Regionen Chiles 133

RUTH L. GADGIL, The nutritional role of *Lupinus arboreus* in coastal sand dune forestry. I. The potential influence of undamaged lupin plants on nitrogen uptake by *Pinus radiata* 357

RUTH L. GADGIL, The nutritional role of *Lupinus arboreus* in coastal sand dune forestry. II. The potential influence of damaged lupin plants on nitrogen uptake by *Pinus radiata* . 575

O. K. GARG and B. P. SINGH, *Short communication.* Physiological significance of ascorbic acid in relation to drought resistance in rice (*Oryza sativa* L.) 219

B. K. GAUR, M. A. PERDOMO and R. RAMIREZ, *Short communication.* Relative contribution of surface and edge to ion absorption by leaf discs 509

I. GHANEM, M. M. EL-GABALY. M. N. HASSAN and V. TADROS, Effect of organic materials addition on transformation of added manganese dioxide to alkali calcareous soils 653

T. N. GHAUDHARY and B. P. CHILDYAL, *Short communication.* Response of rice plants to constant and cyclic submerged soil temperature regimes 493

P. C. GUPTA, *Short communication.* Foliar spray of gibberellic acid and its influence on the rhizosphere and rhizoplane mycoflora. 233

UMESH C. GUPTA, *Short communication.* Influence of various organic materials on the recovery of molybdenum and copper added to a sandy clay loam soil. 249

I. M. HABIB, T. A. AL-ANI, M. M. AL-MUFTI, B. H. AL-TAWIL and B. A. TAKESSIAN, Plant indicators in Iraq. I. Native vegetation as indicators of soil salinity and waterlogging . . . 405

LESTER HANKIN and P. E. KOLATTUKUDY, *Short communication.* Utilization of cutin by a pseudomonad isolated from soil 525

M. Z. Haque, M. Kobayashi, K. Fujii and E. Takahashi, The incorporation of amino acids and nucleic acid bases into the seedling, reproductive stage and young ear portion of rice plants 17

G. W. Harmsen, *Short communication.* Förderung des Reduktionsgrades im Boden durch Verspülung 237

R. Hüser, *Short communication.* Beispiele zur nichtsymbiotischen Luftstickstoffbindung in vergrasten Waldböden . . . 255

J. L. M. Huntjens, Influence of living plants on immobilization of nitrogen in permanent pastures 393

Bushan L. Jalali and D. Suryanarayana, Shift in the carbohydrate spectrum of root exudates of wheat in relation to its root-rot disease 261

Lamar Johanson and H. E. Joham, The influence of calcium absorption and accumulation on the growth of excised cotton roots 331

M. F. Jurgensen and C. B. Davey, Nonsymbiotic nitrogen-fixing micro-organisms in forest and tundra soils. 341

Y. P. Kalra, *Short communication.* Different behaviour of crop species in phosphate absorption 535

D. Kandasamy, K. Sivaprakasam and C. S. Krishnamurthy, *Short communication.* An observation on the influence of different levels of nitrogen on the incidence of rust-disease of pearl millet (*Pennisetum typhoides* Stapf & Hubb.) . . . 757

A. E. Klinger, D. C. Hildebrand and S. Wilhelm, *Short communication.* Occurrence of *Erwinia carotovora* in the rhizosphere of cotton plants which escape verticillium wilt . 215

M. F. Kovacs, Jr., Identification of aliphatic and aromatic acids in root and seed exudates of peas, cotton and barley 441

T. A. Lie, *Short communication.* Temperature-dependent root-nodule formation in pea cv. Iran 751

T. A. Lie, Nodulation of rooted leaves in leguminous plants. . 663

R. J. LUXMOORE and R. J. MILLINGTON, Growth of perennial ryegrass (*Lolium perenne* L.) in relation to water, nitrogen, and light intensity. I. Effects on leaf growth and dry weight 269

R. J. LUXMOORE and R. J. MILLINGTON, Growth of perennial ryegrass (*Lolium perenne* L.) in relation to water, nitrogen, and light intensity. II. Effects on dry weight production, transpiration and nitrogen uptake 561

V. MEJSTRIK, *Short communication.* The classification and frequency of ectotrophic mycorrhizas on *Pinus radiata* D. Don. in New Zealand 753

F. A. MINESSY, M. A. BARAKAT and E. M. EL-AZAB, Effect of some soil properties on root and top growth and mineral content of Washington navel orange and Balady manderin . 1

MOAWAD ABDALLAH MOAWAD, Zusammenhänge zwischen der Eisenaufnahme und dem Eisentransport in der Pflanze . . 619

MOAWAD ABDALLAH MOAWAD, Der Einfluss des Eisens auf den Proteinstoffwechsel in der Pflanze 627

L. E. NELSON, The effects of root temperature and Ca supply on the growth and transpiration of cotton seedlings (*Gossypium hirsutum* L.) 721

FRED A. NORSTADT and T. M. MCCALLA, Growth and patulin formation by *Penicillium urticae* Bainier in pure and mixed cultures 97

P. K. OMANWAR and J. A. ROBERTSON, *Short communication.* A micro and rapid method for measuring P^{32} in plant samples 225

G. PÁLFI and J. JUHÁSZ, *Short communication.* The theoretical basis and practical application of a new method of selection for determining water deficiency in plants 503

F. VAN DER PAAUW, An effective water extraction method for the determination of plant-available soil phosphorus . . . 467

B. POPOVIĆ, Effect of sampling date on nitrogen mobilization during incubation experiments 381

A. A. Abdel Rahman, A. F. Shalaby and M. O. El Monayeri, Effect of moisture stress on metabolic products and ions accumulation 65

M. K. Sadhu and T. M. Das, *Short communication.* Root exudates of rice seedlings. The influence of one variety on another. 541

G. R. Saini, Comparative effect of gypsum and limestone on drainage and salt removal from coastal alluvial soils of New Brunswick 159

F. E. Sanders, P. B. Tinker and P. H. Nye, Uptake of solutes by multiple root systems from soil. I. An electrical analog of diffusion to root systems 453

B. B. Singh, *Short communication.* Effect of vanadium on the growth, yield and chemical composition of maize (*Zea Mays* L.) 209

H. A. Sissingh, *Short communication.* Analytical technique of the Pw method, used for the assessment of the phosphate status of arable soils in the Netherlands 483

K. A. Smith, The comparative uptake and translocation by plants of calcium, strontium, barium and radium. I. *Bertholletia excelsa* (Brazil nut tree) 369

K. A. Smith, The comparative uptake and translocation by plants of calcium, strontium, barium and radium. II. *Triticum vulgare* (wheat) 643

Luis E. Tergas and Hugh L. Popenoe, Young secondary vegetation and soil interactions in Izabal, Guatemala . . . 675

K. L. Totawat and S. N. Saxena, Effect of variations in salinity and alkalinity of applied irrigation waters on the amino acid make-up of *Phaseolus aureus* 43

N. V. Truong, C. S. Andrew and G. L. Wilson, Manganese toxicity in pasture legumes. II. Effects of pH and molybdenum levels in the substrate 547

N. V. Truong, G. L. Wilson and C. S. Andrew, Manganese toxicity in pasture legumes. I. Effects of calcium and phosphorus levels in the substrate 309

S. B. VARADE, J. LETEY and L. H. STOLZY, Growth responses and root porosity of rice in relation to temperature, light intensity and aeration 415

JOHN M. WALKER, *Short communication.* Temperature depression while aerating moist soils and the resultant effect on maize seedling growth 487

ARTHUR WALLACE, Low root temperature, calcium, and nitrate ion interactions on non-exchangeable rubidium, cesium, and sodium absorption by bush beans 121

T. E. F. WEAVIND and J. F. HODGSON, Iron absorption by wheat roots as a function of distance from the root tip . . . 697

G. M. WILL, *Short communication.* Nitrogen supply, apical dominance and branch growth in *Pinus radiata* 515

A. FATHY YOUNIS and M. A. HATATA, Techniques to obtain uniformly growing young roots for the study of salt effects . 49

A. FATHY YOUNIS and M. A. HATATA, Studies on the effects of certain salts on germination, on growth of root, and on metabolism. I. Effects of chlorides and sulphates of sodium, potassium and magnesium on germination of wheat grains . 183

A. FATHY YOUNIS and M. A. HATATA, Studies on the effects of certain salts on germination, on growth of root, and on metabolism. II. Effect of different concentrations of single salt solutions on the growth of wheat root. 293
